WHAT	HOW
The design makes it the perfect gift	The candle is beautifully presented turning it into a lovely decorative object with an exciting secret: natural plant oils make it ideal for the most sensual massages.
Encourages play	The sublime texture of the oil, the temperature, the scents, the light... come together to conjure up a special atmosphere that encourages intimate play.
Kissable	100% natural with food grade flavorings, it is edible and will turn your body into the most irresistible of temptations, totally FREE of SUGAR and GLUTEN.
Perfect temperature	It contains no wax or paraffin, consisting mainly of coconut oil, which melts at a very low temperature so there is no risk of burns.
No showers! Unless you want to continue playing.	There is NO paraffin, waxes or mineral oils, so the natural vegan ingredients melt to create a rich massage oil without feeling sticky and without clogging the pores in your skin.
Take care of yourself while you play	With no parabens or ingredients to accelerate combustion, this candle blends coconut and almond oils for your skin's protection. Furthermore, the 100% cotton wick leaves no smell or residue so it will be in perfect shape for your next massage.
Quality Guarantee	Our products are made in Spain. They are 100% vegan and not tested on animals. They are respectful of the skin and the environment as by using natural oils from fruit and seeds, no trees are chopped down in order to bring you this product.
What do massages taste like?	Wild strawberry? Dark chocolate? Or Salty caramel? Whatever your taste, we guarantee the highest quality by using food flavorings that are good for your palate and your health.
